BOARD DIRECTED GRANTS

Special attention will be given to projects that apply to broad segments of the population.

Especially interesting are projects proposed by coalitions of service providers and by those likely to gain support from matching fund arrangements.

Projects funded should not represent significant duplication of initiatives already undertaken by other non-profit agencies.

Low priority will be given to programs or projects of churches which have a narrow sectarian purpose.

Programs will be considered if they have an ecumenical base or are designed to serve persons in need of food, clothing, shelter or counseling without regard to their religious affiliation.

Requests will be denied for support of annual operating budgets, elimination of deficits, reduction of debt or funding of completed projects.

The Foundation makes grants up to \$5,000.
